By Mail, 10c Daily, per week in advance, \$4.50; Sunday, per week in advance, \$1.50; Daily and Sunday, per week in advance, \$6.00; Daily and Sunday, per year in advance, \$72.00.

CHANGE OF ADDRESS: When changing address give old as well as new address.

All communications must be signed, or they will receive no attention whatever.

MONDAY, SEPTEMBER 20, 1915.

An Evening Echo.

To talk in public, to think in solitude, to read and to hear, to inquire and answer inquiries, is the business of a scholar.—JOHNSON.

Only Temporary.

The Hammond Daily News, Democratic organ in Lake county, Ind., after twenty years of continuous publication, has been compelled to suspend because of poor business conditions in the territory from which its patronage has been drawn.

The announcement is made that the suspension is only temporary, giving ground for the hope that when another Republican national administration has been inaugurated, the newspaper will be restored, and protection and prosperity again restored, the News will be back on the job again, but probably with the soft pedal applied to its knocks on the "infamous protective tariff policy of the Republican party" under which the News was doing a good business.

Col. Harvey on Mexico.

If our government would now turn over the whole business of settlement to the more competent, more sympathetic, racially related and fully trusted envoys from South America, with assurance of our unqualified support of any plan which we must not of necessity disapprove, there is a fair probability that peace could be restored to our bleeding and starving neighbors whom we, however unwittingly, have so grievously wronged.

But if stubborn pride shall prevent the adoption of this simple, manly, generous and wholly practicable proposal, we can but look forward with dole and shame to continuance of the miseries already inflicted upon a people whom we would "serve as friends" by a president and cabinet who—

Promise, pause, prepare, postpone. And end by leaving things alone.

The American Dollar in Chile.

The New York exchange has taken the place of the London exchange for Chilean nitrate sales, according to a report just received by the bureau of foreign and domestic commerce, department of commerce, at Washington. Consul General Keena at Valparaiso announces the sale to an American firm of 4,000 tons of nitrate with payment by draft on New York for \$155,000. However, he adds that since there is no American bank in Chile, much of the benefit of the tendency to establish dollar exchange must be lost, as this type of exchange is only temporarily favored by foreign banks.

American banking opportunities in South America are being given special attention by the bureau of foreign and domestic commerce. Its investigator, Mr. Lough, has just returned from there, and his book describing these opportunities is now in press.

May Restore Old Law.

There is a rapidly growing number of people who are convinced that this country would have been in very bad economic condition by this time if the European war had not given us a tremendous export trade and sharply curtailed our imports. Many of our industries were just in the position to be prostrated by an onset of goods produced by cheap labor in Europe and sent to this country.

The offset now proposed for the cessation of war orders, whenever it shall come, is a tariff commission, but that may be too slow. There are discerning men who say that the only thing to do is to re-enact the Payne-Aldrich law to save the situation at once and then proceed with such a study as will result in the correction of the defects of that law, says the Philadelphia Public Ledger. It is unlikely that the country will permit a tariff policy that will run to extremes.

Deeper in the Hole.

The second fiscal year of the government under the present Democratic administration closed on June 30 with a deficit in the budget of \$28,000,000. This would be a serious problem under any sort of conditions but it is made the more portentous by the fact that the third fiscal year of Wilson's term begins with the promise of an increased deficit. The revenue for the month

of July last fell \$16,000,000 behind the receipts.

No reason exists to think that this condition will soon materially improve, especially as the year begins with the largest appropriations ever made by Congress for governmental expenditures. Income from import duties and internal taxes are not likely to swell the "war" tax can not bring in very much more money than has been derived from that source so far, and the income tax is not to be collected again until the end of the year.

Unless some unseen source of revenue may be discovered, the year of Democratic administration now two months begun will be recorded in the annals of the government as the one of most prodigal expenditure and biggest deficit in our history.

Filing the Silo.

To farmers who are filling silos this year for the first time, the agricultural experiment station at Morgantown offers these suggestions:

The corn should be cut when kernels are dented, or when about a fourth of the husks and lower leaves are turning brown. It should be as near maturity as possible and yet contain enough moisture to insure fermentation.

Either a half inch or three-quarter inch cut is best because that length insures less waste and a larger pack of corn in the silo.

Slow filling makes it possible to pack the corn more thoroughly and get in a larger tonnage. With rapid filling the cost is less, but to fill to capacity the silage should be allowed to settle and then refilled.

Corn should be uniformly packed in the silo and with good distribution of stalks and ears. If the sides are kept about two feet higher than the center, the silage wedges against the sides, keeps in the heat of fermentation and kills molds.

Water needs to be added when filling, if the corn in the silo is not moist. Water must always be added when the corn is very ripe, when the corn is severely frozen before it is properly matured or when filling late in the fall with shocked corn.

Sulpho-Sage

Gray haired men and ladies! Why don't you bring back the natural dark shade you so much desire by the safe harmless method grandmothers used? Simply apply Sulpho-Sage! This dainty preparation based on the good old-fashioned Sage Tea and Sulphur formula, restores color so evenly that no one knows you are using it. Not a dye! Makes hair glossy and beautiful! Clears scalp of dandruff. A single 50c bottle will surprise you. Guaranteed or drug store returns price. Clifton Chem. Co., Newark, N.J.

Sulpho-Sage

Sold and guaranteed by Wells-Haymaker Co., Clarksburg, W. Va.

enables them to accurately control the amount of fuel and draft required for a certain heat standard which may vary with atmospheric changes.

The mirror is 24x18 inches. It is hinged at the top and attached to an iron post at an angle of forty-five degrees, so that it is easily visible from the firing room which is sixty feet long. Although the chimney is 155 feet high, any smoke rising from it is perfectly reflected in the mirror.

THE DAILY NOVELETTE

THE WELL-TAKEN PHOTO.

(A dialogue between He and She.)

"What have you got there?"

"Where?"

"In your hands, behind your back."

"I'm not going to show you."

"Ah, please do."

"Promise you won't try to take it away from me?"

He sneaks up close to the girl, who furtively holds before him a photo, which he clutches with both hands.

"That's beautiful."

"Do you really think so?"

"Yes, pretty nice. But you are much more beautiful, you know."

"Now you're flattering me, I think I look just horrid in it."

"Oh, you don't. Aren't you going to give this one to me?"

The girl flies over to the other side of the room in evident terror. The youth flies over after her, and in an apparent struggle, manages to (quite easily) wrench the photo from her grasp.

"Give it back to me, Please give it back," she pleads.

"Give it back? I guess not."

"I think you're just the meanest thing."

In a little while, they quiet down and despite the fact that she continues to coax him for the photo every few minutes, he carries it away with him. She goes to bed perfectly happy, for she intended that he should have it, in fact, had it taken especially for him.

NOTICE.

CLAY ROSS, vs. ALBERT ROSS, et al., In Chancery.

NOTICE is hereby given to Albert Ross, Everett Ross, Goldie Ross, infant and Edna Ross, infant, all of the heirs of Sarah Rebecca Ross; that the undersigned Charles C. Fittro, Samuel Steel and Roy Peasbark, who were duly appointed Commissioners for the purpose, and any two of whom may act, to go upon the land mentioned and described in the papers in the above styled cause will meet on the premises in the town of Bridgeport, West Virginia, on the 8th day of October, A. D. 1915, to make partition, if possible, according to the decree of this Court.

You and each of you will therefore be present and do what is necessary to protect your interests therein.

Dated at Clarksburg this 15th day of September, A. D. 1915.

The Watts-Lamberd Company

ANNOUNCEMENT

The New York School of Dressmaking

BEGINNING OCTOBER 15th.

We have arranged with the New York School of Dressmaking for a course to be conducted at this store for FOUR WEEKS ONLY, October 15th to Nov. 8th.

Many of our patrons will recall with pleasure, the Dressmaking School of last year, and will be glad to know that the school this year will be conducted by the same instructor, Miss Chobot.

The enrollment is strictly limited to One Hundred Pupils. Last year many were unable to take advantage of the school for having waited too long to enroll, and were disappointed when informed that the school enrollment was complete. It is therefore an advantage TO ENROLL IN ADVANCE and arrange to attend the classes that best suit your convenience.

This will provide a remarkable opportunity for the women of this city to learn to make their own dresses while making them. Come and let us explain to you how it will be possible for you to bring your own goods and make your Fall wardrobe under the personal supervision of an expert from the New York School of Dressmaking.

Butterick Patterns
Waist 8018, Skirt 8017

Individual instruction, with each pupil working independently of the others, makes the work of the greatest practical value.

Five sessions daily, so that your convenience may be suited as to the time you wish to come. The cost of the course of six lessons is only \$3.00. Full information and enrollment cards furnished upon application at our pattern section.

The Fall Style Number

of the

DAILY TELEGRAM

will be published

Thursday, September 23

It will be replete with the latest style and home furnishing information for the fall and winter seasons.

The new styles in wearing apparel for men, women and children will be pictured and described by the highest New York fashion authorities, many of the ideas coming from Paris.

Women's coats, suits, veils, hats, furs, neckfixings and shoes receive much attention in the style number, as well as overcoats, hats, suits and shoes for men and boys. The leading Clarksburg merchants will use many pages of this edition to present their announcements to the trade.
